SKILLS

GIS & Mapping Platforms:

- ArcGIS Pro, ArcGIS Online, ArcGIS Dashboard, ArcGIS Field Maps, ArcGIS Survey123, ArcGIS StoryMaps, QGIS, Leaflet, Google Maps, OpenStreetMap

Programming & Web Tools:

- Python and Languages (e.g., ArcPy), JavaScript, SQL, HTML, Jupyter Notebooks

Data Analysis & Visualization:

- ArcGIS ModelBuilder, ArcGIS Machine Learning Tools, Microsoft Excel

Field & Environmental Tools:

- GPS/Garmin Devices, Benthic Macroinvertebrate Sampling, Physical Habitat Assessments, Species Identification (Eastern U.S. Birds), Triangulation

EDUCATION

University of Maryland - College Park
M.S. Geospatial Information Sciences | 2025

University of Maryland - College Park
B.S. Environmental Science and Policy | 2023
Wildlife Ecology and Management
Minor: Geographic Information Systems

CERTIFICATIONS

- MBSS Benthic Macro invertebrate Field Sampling Certification | 2027
- MBSS Physical Habitat Assessment Certification | 2026
- Adult First Aid/CPR/AED | 2027

GWENDOLYN ZECKOWSKI

M.S., GEOSPATIAL INFORMATION SCIENCES | GIS ANALYST | ENVIRONMENTAL SCIENTIST

PROFESSIONAL EXPERIENCE

Environmental Scientist

AUGUST 2024 - PRESENT

Clean Streams LLC - Prince Georges County, MD

- Participated in the Maryland Biological Stream Survey (MBSS) and geomorphological assessments
- Processed soil sampled for bulk density at TetraTech lab

GIS Analyst

AUGUST 2024 - MAY 2025

Clean Streams LLC - MDDNR

- Conducted spatial analysis for stream sampling locations using ArcGIS Pro
- Created statewide landowner parcel maps to facilitate access permissions
- Managed outreach and outreach records in the GIS database system

GIS Technician Intern

JUNE 2024 - SEPTEMBER 2024

Architect of the Capital - Washington D.C.

- Used GIS and Davey TreeKeeper System to map 500+ acres of vegetation
- Digitized and maintained detailed records of shrub polygons for federal landscaping projects

Esri UC Conference Student Assistanship

JULY 2024

Esri - San Diego, CA

- Worked the attendee registration table, handed out Esri bags at the swag station, and worked the Esri store retail
- Participated in the Special Achievements in GIS Awards by navigating people on where to go and handling the capture of their photos
- Connections made through Young Professional Network Events attended

Capital Power Plant Intern

JUNE 2023 - AUGUST 2023

Architect of the Capital - Washington D.C.

- Presented plant tours highlighting environmental and eGrid operations
- Assisted in hazardous material handling and chemical delivery protocols

National Wildlife Refuge Waterbird Intern

MAY 2021 - AUGUST 2021

U.S. Fish and Wildlife Services - Maine

- Banded and checked productivity plots for Arctic and Common Terns
- Handled Black Guillemots, Common Eiders, and Atlantic Puffins
- Collected blood samples and performed nest counts
- Analyzed chick provisioning behaviors in 4-hour observational windows

Waterbird Research Intern

MAY 2019 - AUGUST 2019

USGS Patuxent Research Refuge

- Conducted breeding population surveys on Common and Least Terns
- Banded and re-sighted terns using USGS BBL bands and plastic tag bands
- Developed ArcMap using GPS-based nest location
