ENVIRONMENTAL SCIENCE AND POLICY PROGRAM

Our Goal: To assist United States Department of Agriculture's (USDA) Animal and Plant Health Inspection Service (APHIS), Wildlife Services (WS), and Airport Wildlife Hazards Program (AWHP) to tell their story to the public; efforts mitigating wildlife hazards to aircraft for civilian and military airfields.

PROJECT GOAL

UNIVERSITY OF
MARYLAND

ENVIRONMENTAL SCIENCE AND POLICY PROGRAM

Task 1

Task 1: Pinpoint locations of non-listed airports

Task 2

Task 2: Collect/analyze wildlife strike data

Task 3

Task 3: Compile strike data in an interactive map

Task 4

Task 4: Create dashboard enable interaction

PROJECT GOAL

METHODS

FINDINGS

LIMITATIONS

RECOMMENDATIONS

Task 1

Conduct Background Research on Wildlife Strikes and work being done to address them

Task 2

Design and Create StoryMap presenting research

Task 3

Incorporate GIS Dashboard into StoryMap

PROJECT GOAL

UNIVERSITY OF
MARYLAND

ENVIRONMENTAL SCIENCE AND POLICY PROGRAM

Methods: GIS Map and Dashboard

1. Primarily accomplished through ESRI's ArcGIS online (AGOL) and Dashboards applications
1. Created map displaying all airports associated with Airport Wildlife Hazards Program
1. Filtered by airport name, use

Methods: Dashboard

Filtering Data

From *Table 2* of the written report

Index Number	Repair Costs
Incident Date	Other Costs
Incident Month	Inflation Adjusted Repair Costs
Incident Year	Inflation Adjusted Other Costs
Time of Day	Indicated Damage
Airport ID	Damage Level
Airport Longitude	Effect
Airport Latitude	Species
Airport Name	Remarks
State	Warned
FAA Region	Number Seen
Aircraft Type	Number Struck
Sky	Size
Precipitation	Number of Injuries
AOS	Number of Fatalities

Recommendations

“ It's a personal legacy as a grandkid of a cold war pilot when wildlife strikes weren't often considered. Today, we get to focus on our work to change the narrative for Aviation in a meaningful way.

“ I care about the safety of the men and women serving our country, particularly those carrying out the flying missions; as well as those involved with air operations.

“ Working towards positive outcomes for both people and wildlife is a big motivating factor for my work to reduce aircraft/wildlife strikes.
